

MIWO München e.V.

We dream of a home for international students.

**Are you joining us in our dream?**

We are a non-profit organisation that plans to open a residence hall for students and Studienkolleg attendees of all nationalities in a currently vacant building in Munich.

Almost 100 young people could move in as early as December 2026!

We need you for this: Are you (soon to be) studying in Munich or attending Studienkolleg and want to help shape the home of an international community?

Perhaps you would even like to become part of this housing project yourself?

**Join us for an information evening and get to know us:**
